Dear Sir,

RE: REFERENCE LETTER:

This is to confirm that The Business Accelerator Consulting Group Limited carried out a feasibility study for an Export Compliant Pig Slaughterhouse and a Pork Processing facility from December 2020 to March 2021 which we submitted to START Facility – Funded and managed by EU, PSFU, UNCDF and UDBL

The feasibility study was well researched, balanced and is an excellent Road Map and a Blue Print that we hope will give us access to the export market, enable us grow our market share & sustainably compete favorably.

We commend them for the flexibility, innovation & technical competence they exhibited while carrying out this assignment. They tailored their business solution to the unique needs of my company & were adoptable in changing circumstance especially in the wake of COVID 19.

Any support given to them will be well deserved.

Yours faithfully,

**Kyamazima Eudiah**  
**OPERATIONS DIRECTOR**
